Respite Care

Respite Care is a short term stay that helps a family take a break from the daily routine and stress of providing care. Respite Care is an essential part of the overall support that families may need to help keep their family member at home. Zearing Health Care Center's Respite Care Program allows the primary care giver a brief rest knowing their loved one is being cared for by licensed and compassionate staff. The duration of a Respite Stay is dependent upon the needs of the caregiver and patient. Our unique Respite Care program offers stays from a few days to a few months for your loved one.
